

## MATLAB R2020a — Windows

### Account Registration

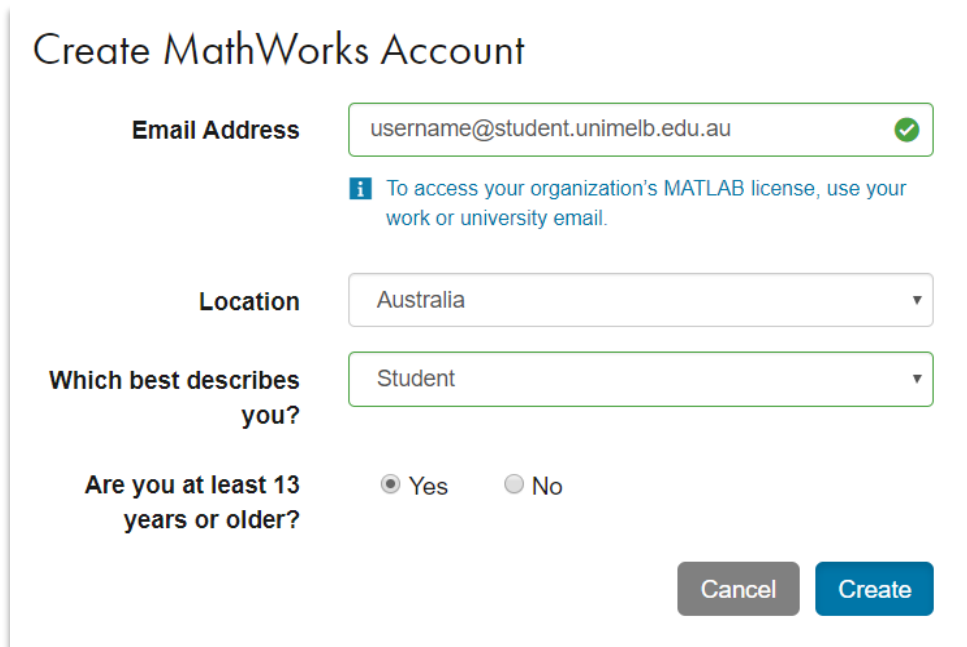

1. On the [MathWorks](https://www.mathworks.com) website, select **Sign In** at the top right-hand corner.

2. Select **Create Account**.

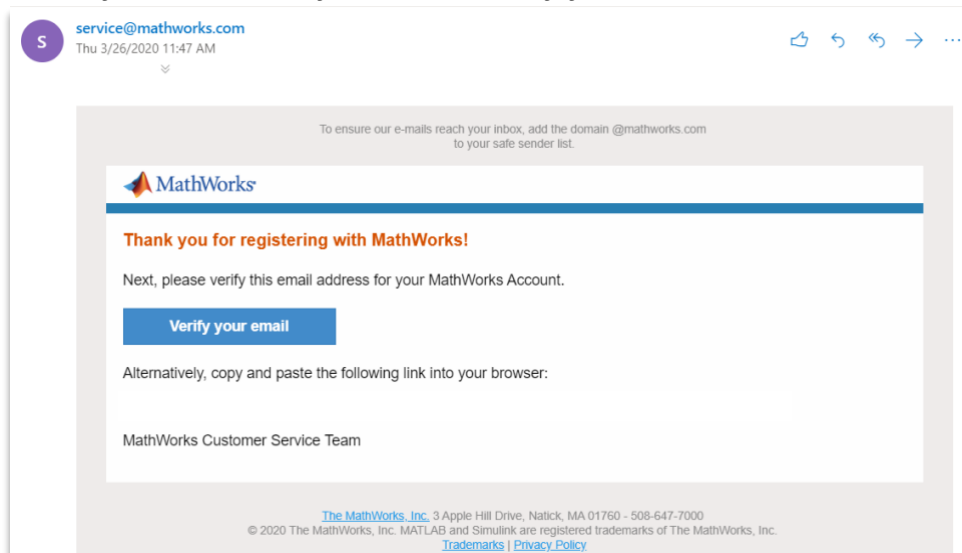

3. Enter your personal details using your university email address  
\*username\*@student.unimelb.edu.au or  
\*username\*@unimelb.edu.au if you are a staff member (replace  
\*username\* with your own university username).

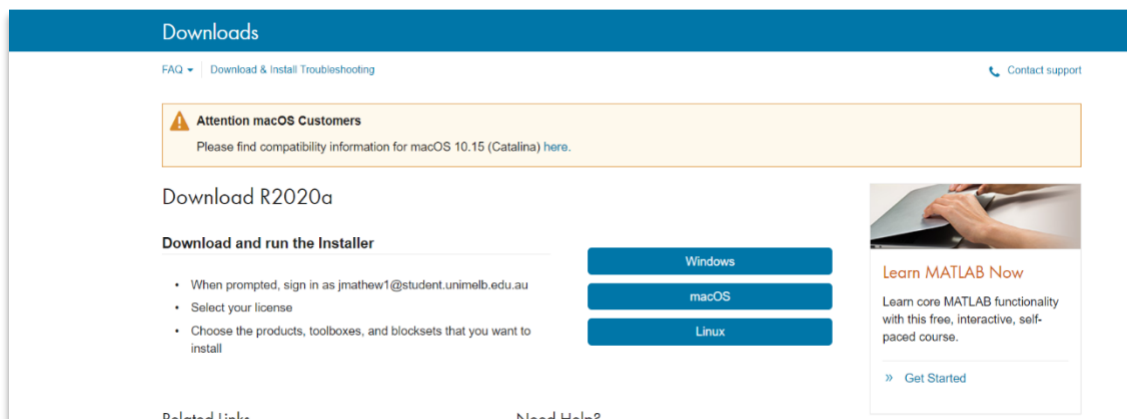

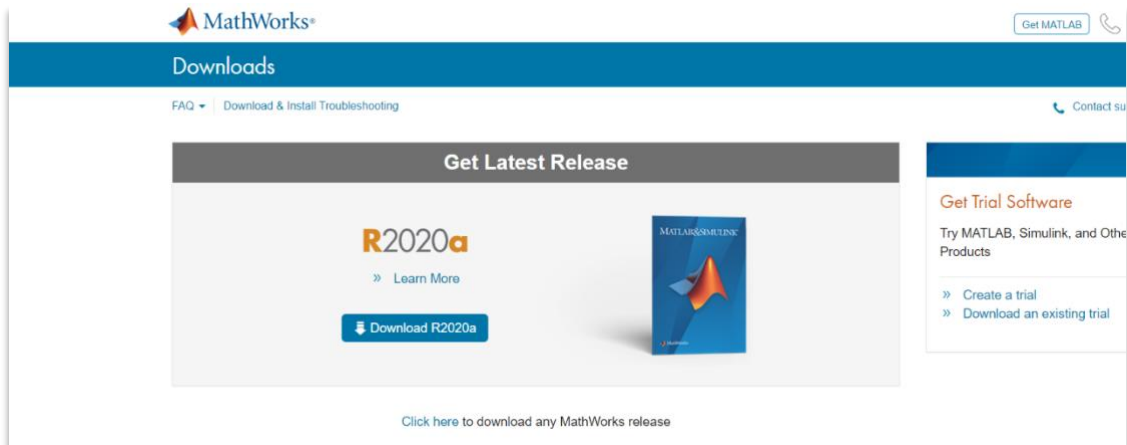

The screenshot shows the 'Create MathWorks Account' form. It has four main sections: 'Email Address' with a text input field containing 'username@student.unimelb.edu.au' and a green checkmark icon; 'Location' with a dropdown menu showing 'Australia'; 'Which best describes you?' with a dropdown menu showing 'Student'; and 'Are you at least 13 years or older?' with radio buttons for 'Yes' (selected) and 'No'. At the bottom right are 'Cancel' and 'Create' buttons. A blue information icon and text are located below the email field: 'To access your organization's MATLAB license, use your work or university email.'

4. Check your university email to verify your MathWorks account.

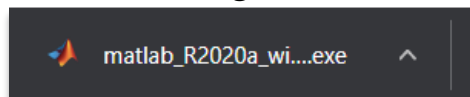

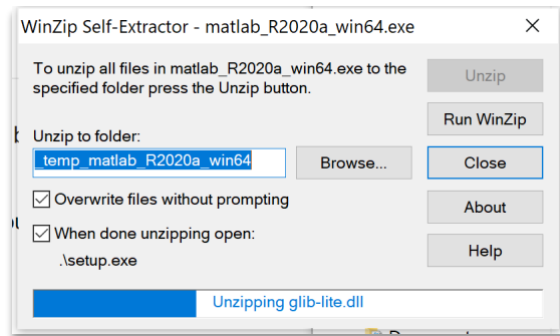

# Installation

1. Download the latest version of MATLAB from the MathWorks website by clicking the **Download R2020a** button, then the **Windows** button.

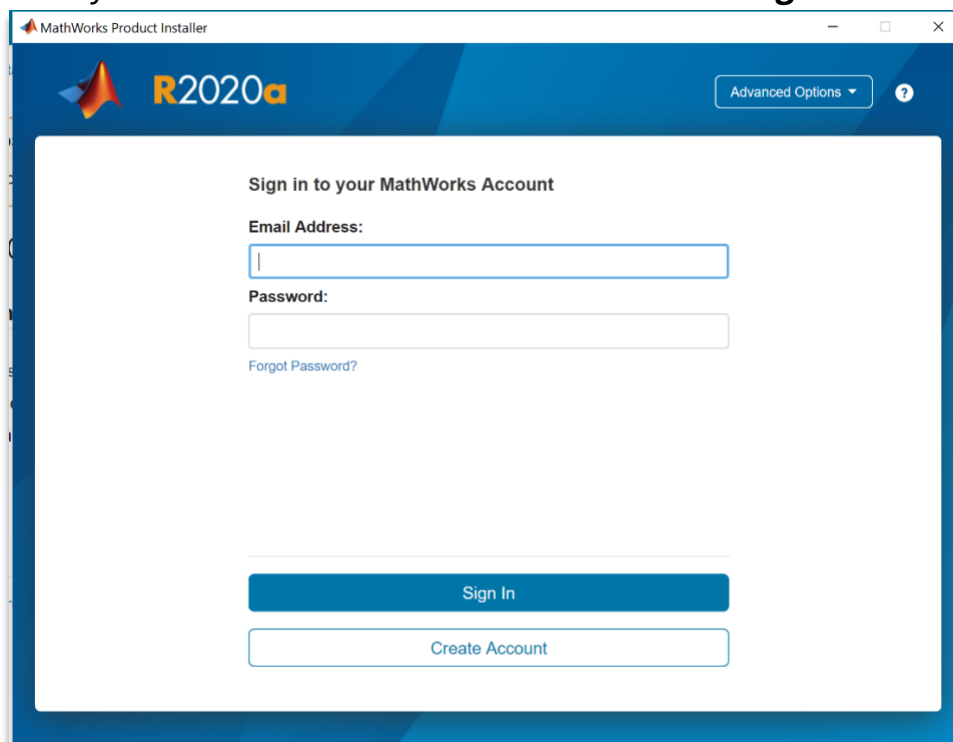

2. Open the installer by double-clicking the download file. Windows will automatically unzip the file and begin the installation.

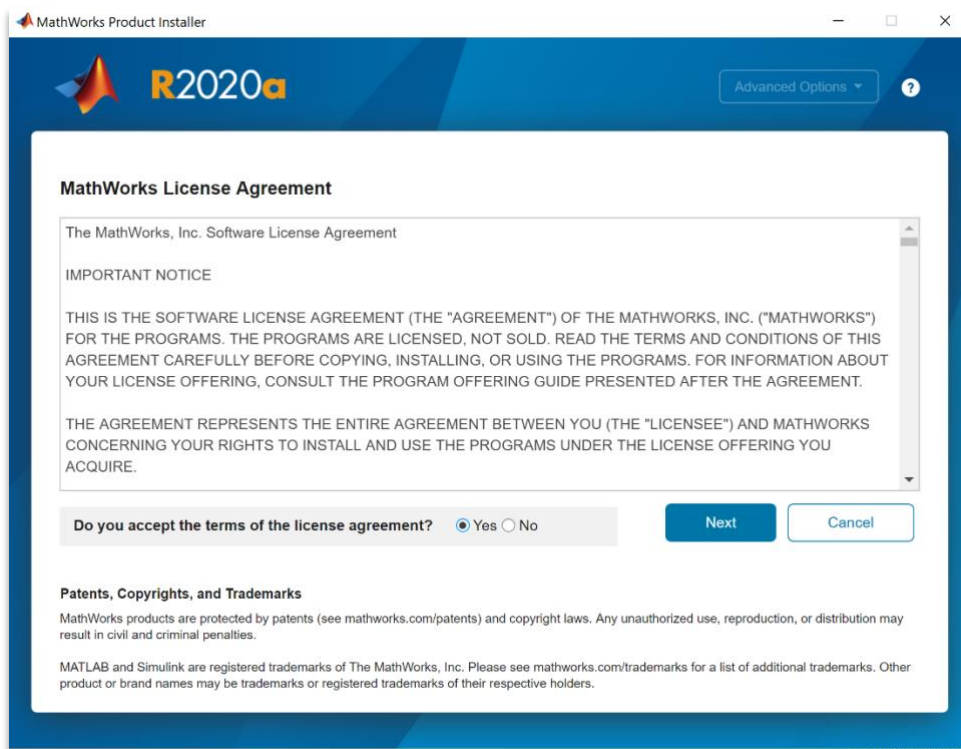

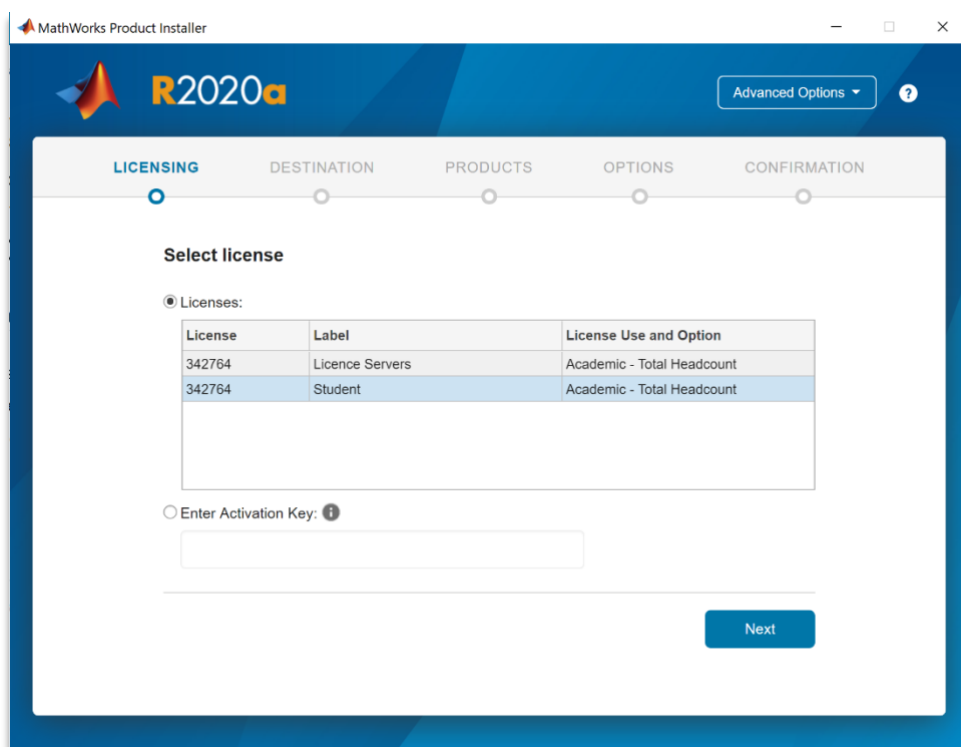

3. Select **Yes** when prompted with “Do you want to allow this app to make changes to your device?”.
4. Enter your MathWorks account details and click **Sign In**.

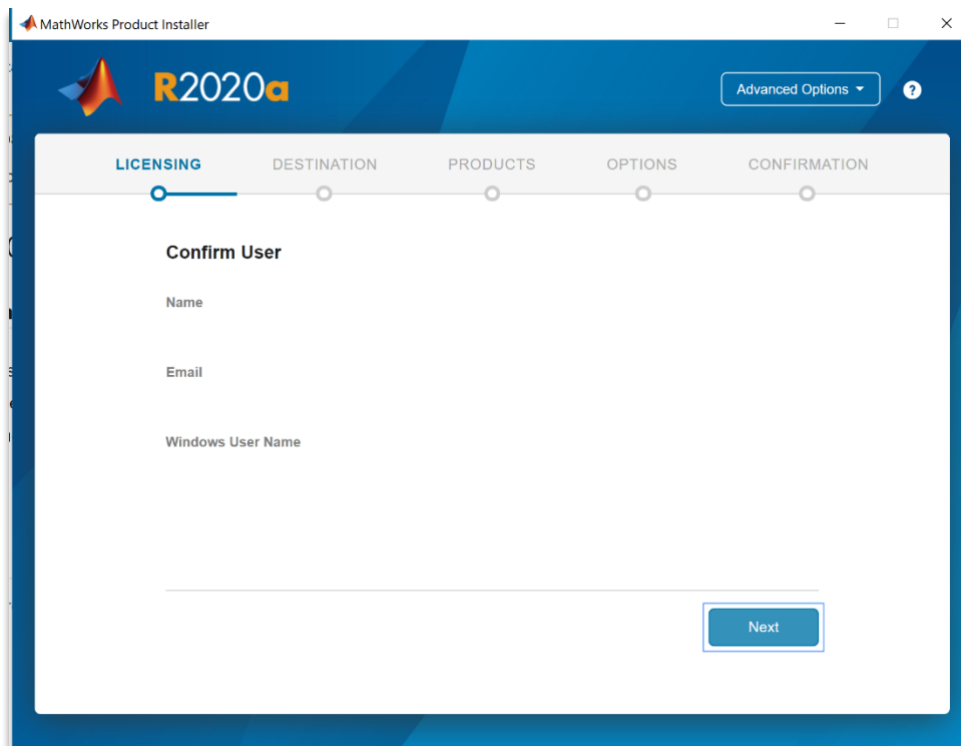

5. Select **Yes** next to “Do you accept the terms of the license agreement?” and click **Next**.

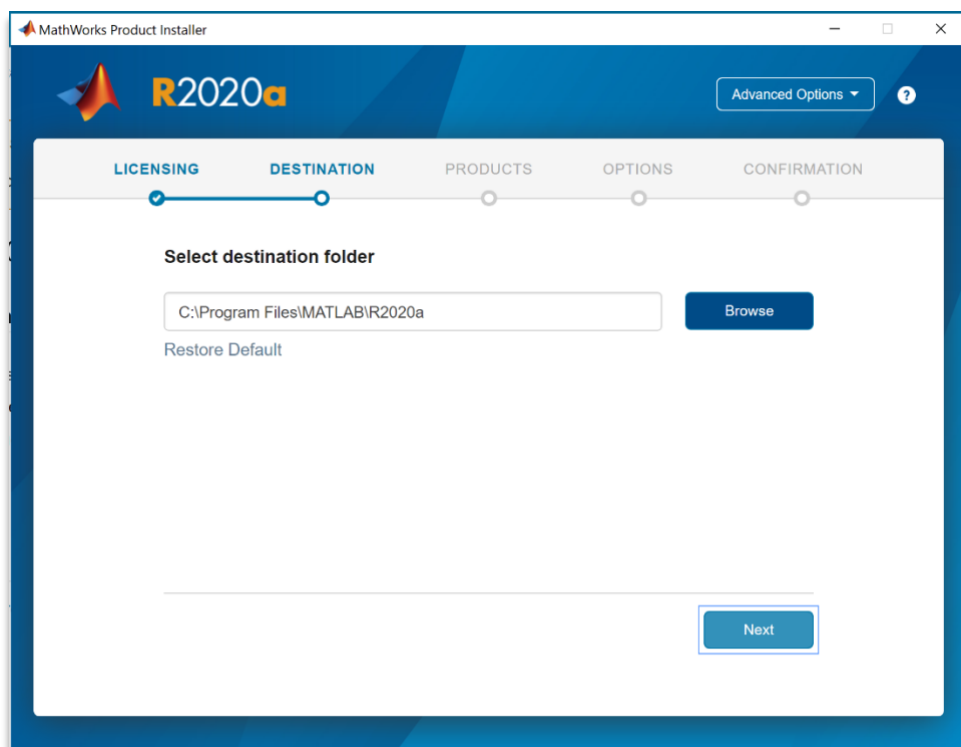

6. Click the license **Student** under “Licenses” and click **Next**.

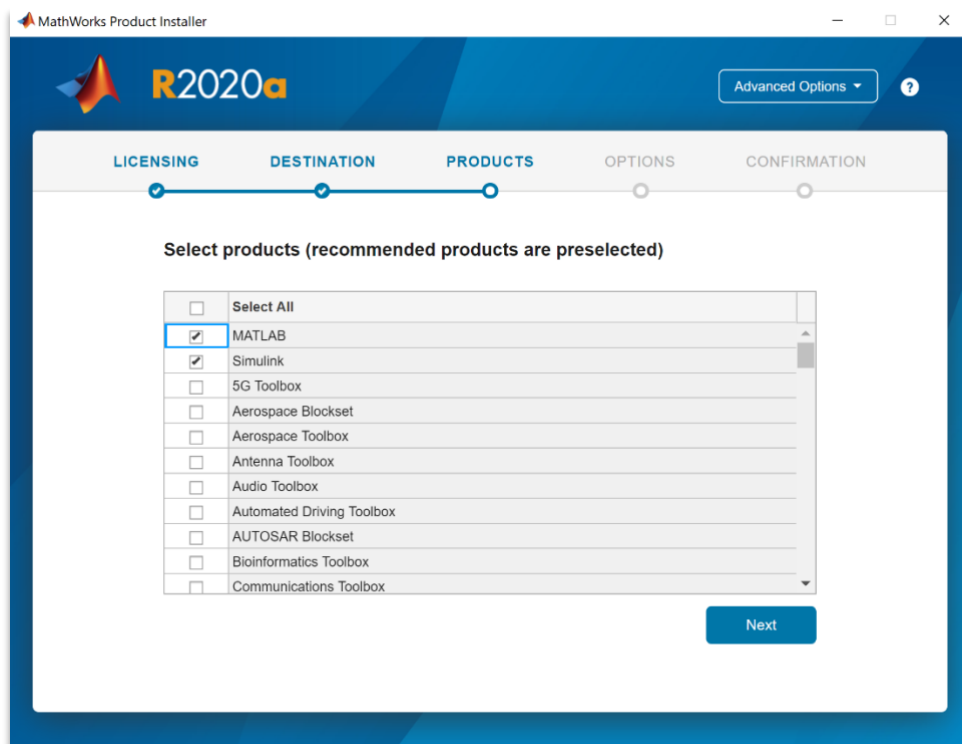

7. Ensure your Name and Email are correct then click **Next**.

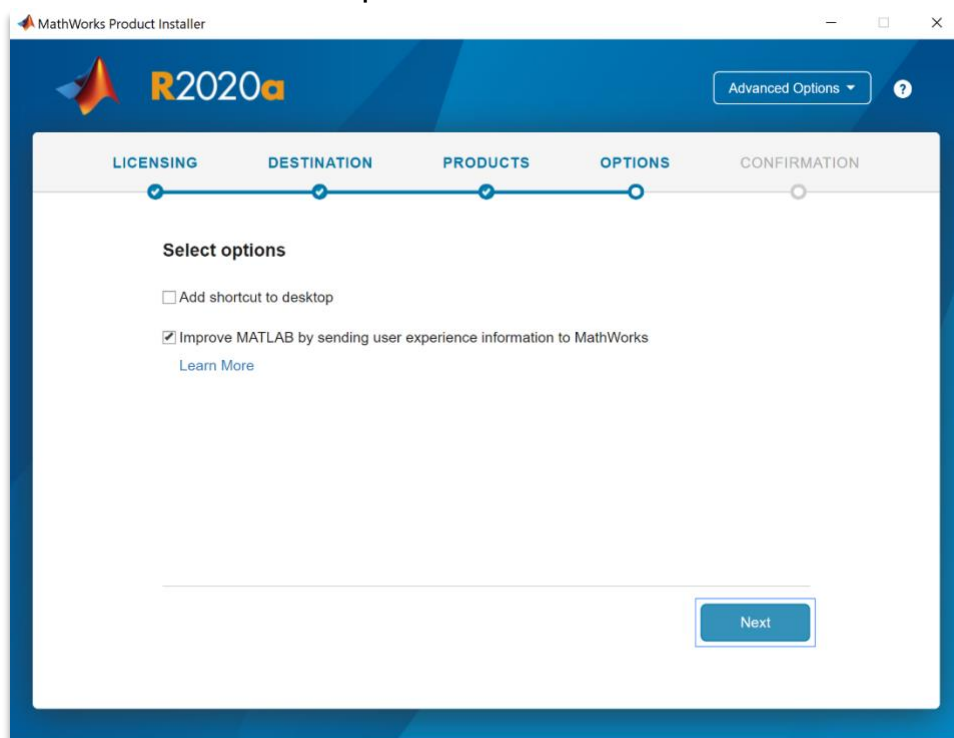

8. Choose desired installation folder or leave as default and click **Next**.

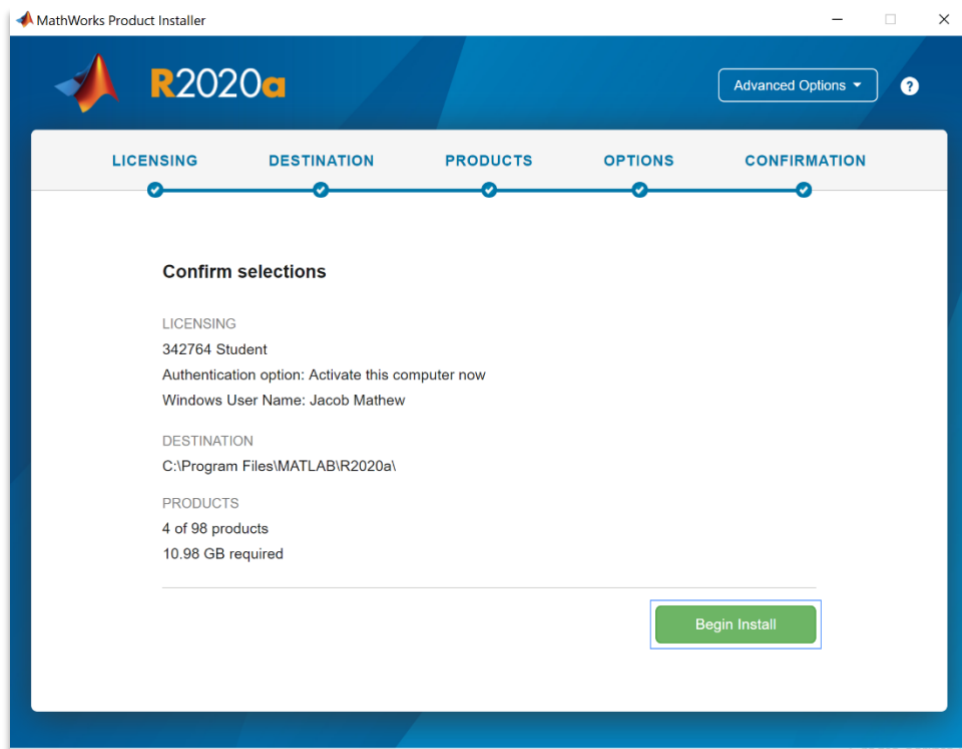

9. Ensure “MATLAB” is selected and any additional add-ons you wish to install. Leave as default if you are unsure, as add-ons can also be installed later. Click **Next**.

10. Add shortcut to desktop if desired or click **Next**.

11. Click **Begin Install**.

12. Wait for the installation to complete, then you are finished!
